To the Electors of Vancouver Island District.

C ERTL: Ma, A:—In response to the solicitation of a number of prominent gentlement residing in the different settlements of your Electoral District to offer myself as a cardidate to represent your interests in the Mouse of Commons, I have, raiter mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doublies expected that I as a candidate should advert to at least some of them that

those of a member of the local legislature, being in their nature more autienal, it is doubties expected that I as a candidate should advert to at least some of them that more directly concern your integrats. I will say, them that having been one of the earliest advocates of a Canadian Transcontinental finiteway, a shall, it elected, consider it to be my paramount duty in view of making it a grand notice not success, to insist that the Terminus shall be at haquimalt, and that the lips shall traverse the entire outle-mastern toust of the Island from Johnson straits.

Under the Terms of Union with the Iominion, it is the province of the local legislature and not of the Dominion Parliament, to declar as to the kind of tariff that the people of intribut follubbia useds to be best stitled to their varied industrial interests, during the next ten years. Shound, however, the question come before the nonamour trainment, I what enquevor to have the tarm as shalled as to heast with the concurrence of the agricultural, mining, and commercial interests of you, district.

As the Dominion now possesses exclusively the right to manings our postal and telegraphic affairs, I shall endeavor to secure for the hastern toust a bi-weekly mail steamer of a superfor class to be one now plyaing on the coast,—and also better half facinities in each settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Kannamo and Victoria, I shall urge out the Federal Government the importance of the early construction on a telegraph line to connect the two principal towns in the Province.

The lactoristic of the commerce of the

The Increasing in portaince of the commerce of the Gulf of Georgia readers it necessary to have more eighthouses. I shall therefore make the most streamous exertions to induce the Federal dovernment to build a lighthouse of basising of once, and to erect others closewhere, as soon as bosoliet, the linears greater safety and certainty in naving ing the Unit. With respect to the Indians, I will arge that they be settled on assertations, under the superintendence of Government Agents, where they may, with the assistance of the covernment, be build the arts of civilization, and thus have their sacial, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Blospical at Namando, i deem to be deserving of sprious consideration. his deration.
The Geological Survey now begun will doubtless be of

scape my attention.

The Fisheries along our coasts promise to become very profitable, and as the Lominion Government has agreed to extend its protection and espectragement to that valuable and important branch of industry. I will endeavor to secure for your district its juit share of any aid that may be appropriated for toutpur, see.

REPLY. Gentlemen : Nothing can be more gratify g than the honor of having succeeded aining the ap, obation and good will of the e ple of one the most important constituen cies in the country, I have creat pleasure to accepting the nomination sliuded to in your equipment. The next Legislative Assembly viil probably be the most important that has ever met in this colony, and at behoves al

elves to insure the succe-star working of a liamentary Government. It may be found well to practice to remember that the misre, resemutions of those designing men, who so loudly asserted that were not qualified to exercise political fauctions with advantage to yourselves or to the country, have been signally refuted, and that tweive years of misgovernment proves most conclusivery, that they we e not compe tent to hold, or exercise, the office of governor with advantage or safety to the community Experience shows that it were vain to exper oritical improvement from men in who ufficial career is But to be lound material progress, when unt iden ified atth their persone rofit or advancement. I confess that whe speculating on the causes which led to the usastrous retrogression of the past, I sin uzzled to account for the long con inusace of a poli ical sy tem, t . wi ich is trace ble so much unmixed evil—a system contanting within itself such active elements of ruin, which when considered it the abs ract, might have been expected to put an end to its existcuce much sooner Nor indeed is this ail. It

will be the duty of future legislators, in

their post mortem examination of the late

government to lea To sty probe the complicated di order- which paved a way for its final It is not provible that any modern English community has suffered politics. ilis so jairen ly as the people of British C. lamina. The amount of maladministration, and the extrardinary nature of official aggrandizement is perfectly astounding. Amored epi rab e collect to a of despotic tomes can hardly be imagined. We have seen public servants voting their wn s laries, fixing their own pensions defying public opinion, ad pursuing with udied male olence, the popular epresentaves. We have seen mere adven ureremployed as envoys entrusted with important te secrets-advertur rs wbo are universal y

execrated, whom the propie have never trusted and have long suspected—creatures who are to British Columbians what the hateful Conudinus were to the Ancient Romans Nay. to c own this humiliating distina, a perverse and apparently sense e-s superior authority receive them with fuisome flattery, and apheir beide in proportion to the miechier bat they have done. The singularly baneful and distinctive

struction and warming, and affords to every d cting mind numerous and important lessons. The time appears appropriate for turning such lessons to account by improve-ments at once expedient, practical, and decisive; but they realize on y half the danger which these events indicate, who see in them only official usurpation on the one band, and determined opposition on the other. The lesson which these events teach us is, that gross legislation and extreme ag tation are inseperably connected —that each is the blood relation of the other. Nay more, the danger indicated is to be apprehended by placing great powers in the by immediate not remote, certain not dubious

onst tutional laws that those power shall not be abused. It will hardly be disputed by men of candonr and experience that there are certain requisites indispensably necessary to the security and etherency of all just governments the most important of which I believe to be recdom and security against wrong. Now I think you will readily admit that most civilized g vernmen's have succeeded presty will in securing the people a ninst wrong trom each other; at to secure them by haws gainst a rong from he government itself, i problem of a far more difficult sort, which w nations since the co .mencement of gov erumen s have attempted to solve. But it is probiem upon the solution o which depends the freedom and security of every existing nation against oppression and peculation, and which from its importance commends lise I to e at zious and impartial consideration of all en who are desirous of rendering permanen

service . mankind T at i is not the bust ess of those who overn to compel public opinion to follow them, but that it is heir duty to follow put ne opt ton, is a canon of my political creed Unf rinner-y the practice of those who have governed this colouy, has been, both by precept and Example to bink differently, but the day is no far distant when the prediction of the dvocates of justi e and of re sou shall b. verified, -- when the u just and bar arous aws which distranchise so many intelligen d worthy cours s shall exist only as evidence of the higotry, and sorded ignor nee of those from whom they emented, -when the romining future proclaims the results of o federation, the promition of aits and creace, the diffusion of useful truth, of dutation, of civil and religious liberty. I carnestly trust th t with the advantages the ded by Conf deration and Responsibe veriem n our popular represent tiges may o far ignore I cal issue sas to mithinly and certica unity reform the bad legislao of the past, ad by a comprehensive and toeral policy, mangu ate a new era in our officed bistory and insure the prosperity and appiness of all.

A Divided House. We have the very best authority for saying that a Louse divided against itself is in danger of tumbling to pieces. The aphorism bolds good in politics as well as in religion. A public journal whose commercial creed is free trade and the removal of all customs barriers, so that every man may enjoy the unrestricted privilege of baying in the cheapest market and selling in the dearest, ought to be consistent with the principles it councietes on this subject by carrying them still further, and extend the freedom to labor as well as to trade. But such consistency is not to be looked for on the part of a concern like the Colonist. Whilst Mr. Robson is engaged in an election campaign amongst the Nanaimo ites, and is brought forward chiefly by the managers of the Vancouver Coal Company as the man whose political and industrial views best harmonize with their own, his empty-headed "boss" is their own, his empty-headed "boss" is preading himself on the Chinese labor question, and describes the employment of the 'long-tailed, almond-eyed gentlemen" at Nanaimo as a step to deprive honest, laboring white men of the means of making a livelihood, and calculated to lead to the most "pernicious cousequen-ces." Hence, this pair of political worthies are at issue on a question of paramount importance to the laboring population of Nanaimo, or clse, having two sirings to their bow, they are playof the Coal Company and the white miners, in expectation, we presume, of catching the votes of both parties. The game is not by any means a safe one, there being a possibility that between the two stools the Colonist candidate may CHEES -Eastern and California, fall to the ground. Our object is not now to discuss the merits of the Chinese labor question, nor to defend the interests of the Chinese as a class. We admit the question to be an exceedingly knotty one. difficult to deal with, and one that sooner or later must eagage the attention of the local Legislature. But we simply desire to call attention to the inconsistency of the free trade organ in seeking to create a prejudice against the Chinese as a class, and to deny all other classes enjoy, while it prates so glibly and discourses so pathetically against all restrictions to commerce in the way of import duties. Those who advocate the principles of free trade claim for themselves the credit of being not only wiser in their day and generation than those who hold protectionist tion than those who hold protectionist views, but also much more liberal; and it is so in an especial degree with those who at present control the columns of Patrons, and they hope by so doing to merit a continuthe Colonist. It therefore comes with Brackerson bad grace from that quarter to deny any to hold those up to public odium who choose to engage their services as labor-ers or workmen. Were we, as protectionists, to take the ground that to employ Chinamen is a "pernicious" practice. and that with a view to protect white laborers against being forced into competition with them they should either be excluded from the country, or made to pay a special poll-tax, or be compelled to adopt European habits in cating, in drinking, and in what they wear, in order that they should contribute their fair proportion as citizens to the general revenue of the country, we might claim credit for being consistent in so doing, it being in barmony with the general theory of protection; for we cannot see GENERAL COMMISSION any material difference between protection to trade and protection to labor. this question. It is one of those social problems which has taxed the menta energies of the wisest political economists of the present day, but without arriving at any satisfactory solution of it. What to do with the "heathen Chinee," is a question much easier to ask than to answer. But when it does force itself upon the attention of our Legislature, as we are assured it will, we shall be prepared to discuss it fully in all its bearings and to suggest a remedy for the evil meet the case. In the meantime we would say to the electors of Nanaimo that they should be chary of Mr Robson, as being the nominee of those who introduced Chinese laborers amongst them; and we think the Coal Company have also some grounds to suspect the integrity of their man on this delicate point when the paper of which he is the editor comes out so flat-footed against the action they have taken in the employment of Chinamen as laborers in the mines.

PERRS' VOTE ON THE ABOLITION OF PURCHASE BILL.—Several Conservative peers voted with the Government in favour of the Army Bill. Among them were the Earl of Derby, the Earl of Devon, the Earl of Longtord, Earl Nelson, the Earl of Romney, Earl Stanbope, the Earl of Stradbroke, Viscount Middleton, Viscount of Stradbroke, Viscount Middleton, Viscount Sidmouth, and Lord Lytton. The following who are classed as Liberal-Conservatives, voted with the Government:—The Earl of Catheart, the Earl of Harrowby, Earl St. Germans, the Earl of Shaftsbury, Viscount Falmouth, Lord Ashburton, Lord Auckland, Lord Bunsany, Lord Harris, Lord Cathorne, and Lived Seaton. The only members of the and Lord Seaton. The only members of the Episcopal bench who voted gave their votes to the Government-viz.; the Archbishop of York, and the Bishops of Ripen, Exeter, and Manchester. The Duke of Richmond's and Manchester. Particulars of the late Railway Collision, Mear Boston.

At the time of the collision the accommodation train for Beverly had its red hoisted for the express to hold up, which it did at Everett, but subsequently proceeded, and was under full beadway when near Revere Station. The engineer evidently was not aware of the proximity of the Beverly train until within sixty rods. He then whistled down brakes, but not soon enough to avoid the columity. Some of the passengers in the rear of the accommodation train heard the omnibus whistle too late to escape. On came the express train at a great velocity and the engine struck the rearmost car ful Sona Cheek, August 31—Quite a number in the center, forcing its way in a telescopic of miners from Montana have passed here en manner two-thirds the length of the car. The smoke-stack was instantly knocked off, an i the boiler penetrated all the distance into the feet during the last 24 hours. Two of Bar-nard's stages, with full loads, arrived tast smashed into a thousand splinters, throwing the debris out on the side of the tender. The rear car was crowded with people, every seat being occupied and many standing in the

sisle. Among these the locomotive rushed as quick as a flash just as the Baverly train started, mangling and killing them in a most frightful mauner. Simultaneous with the collision, the head cap of the boiler broke, and in an instant the wretched sufferers were abroaded in a cloud of hissing steam and de shrouded in a cloud of hissing steam, and de luged with boiling water, which brough nstant death to many of the wounded and will prove fatal to others who have not been otherwise seriously injured. The lamps spilled their contents, but the fire, if any, was undoubtedly extinguished by water and steam. Although the Beverly train was just moving when the callision took place, the motion did The Paris Crew backed out of the great not prevent injury to the cars in front. The coupling between the two rear cars broke, and the platforms of all of them jammed up together with the smoking car, overlapping he baggage car, and rods and timbers mixed inextricably. Fortunately the entanglement was not so getting out speedily. Happily for them they did so, for the kerosens lamps were upset and the contents spilled on the upholstery, and instantly the emoking car was in a blaze. The flames traveled with great speed from one car to another until three of them were embraced in the fiery folds These were subsequently moved up the track half a d. z :n rods and w r : allowed to burn until nothing was left. An effort was at first made to pur out the fire, but this was prevent ed, and the flames were useful in lighting up the dreadful scene in the rear and faciliated services for the wounded. The Coming Election EDITOR STANDARD, I address the following remarks through your columns in hopes they he part of Italy upon the Alabama claims. | will attract the attention of the proper auadopted; in doing so, I have no party inte-rests to serve, as it affects all alike. The Gen. Prim. He is at present detained from object of the franchise, if I mistake not, is to going to Madrid by the filness of his daugh-elicit an expression of the opinions of those who have a right to speak in matters concerning the Government of the country, and By the present Electoral Law, the country is divided into districts, and the districts into polling divisions, and each division its sepa rate list of voters. If it is intended that each vote be recorded in the particular division in which it is registered, such an arrangement will have a very injurious effect in the district of Cariboo, as it will deprive

dents say no formal treaty has been concluded scores of properly registered voters from between Germany and Austria; but they have exercising that privilege. Our circumstances in the mining districts are very different to those in more settled districts, from the constant moving of men trict, which cannot be avoided, not from any roving disposition on the part of the men themselves, but arising out of circumstances beyond their control. It cannot reasonably be expected that men can come from Omineca to either William or Lightning creeks for the purpose of recording their votes on the day election, or from one division to another from San Francisco for Nanaimo on the 30th would be necessary to cover the expense; the such a loss, however great the inclinations, amount actually charged the city is \$3,501,- and yet as good citizens we cannot help feeling interested in the result. Already there

have been very many removals, such as I each voter in the district be allowed to record his vote in the polling division most convenient to himself at the time. To guard against fraud, let the party recording his vote out of his particular division be subject to an oath as to his identity-very few people would run the risk of serving Her Majesty in the chain-gang for the sake of his vote, by per-juring himself-but if need be, as additional security against imposition, that another party might be required to substantiate his statement.
